

Hand-held circular saw blade for steel

This premium circular saw blade for professional users is ideal for cold, fast straight cuts in steel.

Product number: 6 35 02 305 00 0

Details

- + Extremely long tool life due to highly wear-resistant carbide substrate.
- + The special tooth geometry ensures minimal cutting forces along with lower temperature development, which yields outstanding results when dry cutting in structural steel.
- + The vibration damping laser ornaments ensure exceptionally smooth running when sawing with the F-IRON Cut 57 AS.
- + The saw blade with a wide resharpening zone can be resharpened several times.

Technical data

TECHNICAL DATA

Material	HM (carbide)
Saw blade Ø	6 [150] in[mm]
Teeth	30
Cutting width	1/16 [1.2] in[mm]

Suitable for the following tools

- > F-IRON Cut 57 AS
- > F-IRON Cut 57 AS Set
